Promo & Holiday Analysis

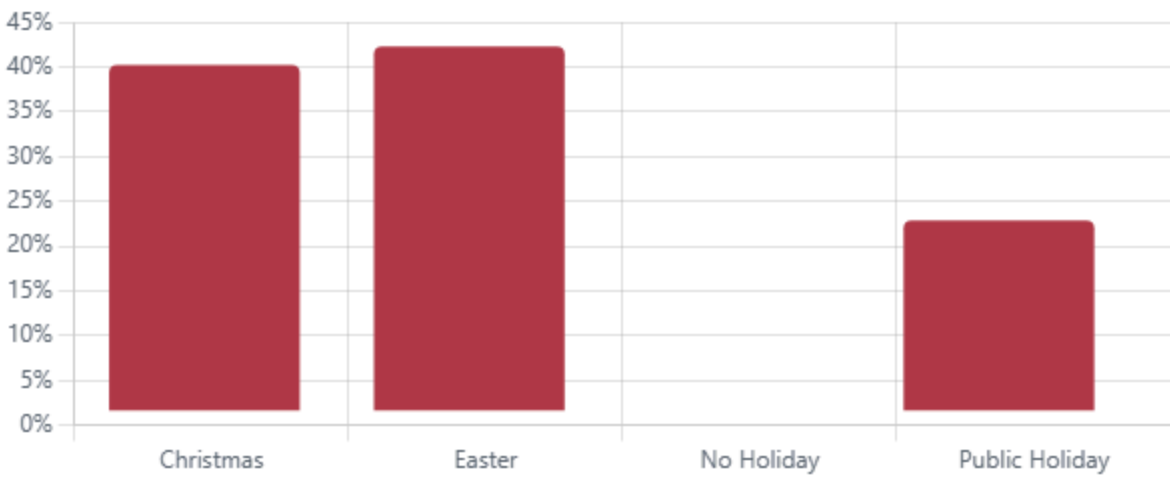

Promo uplift — overall

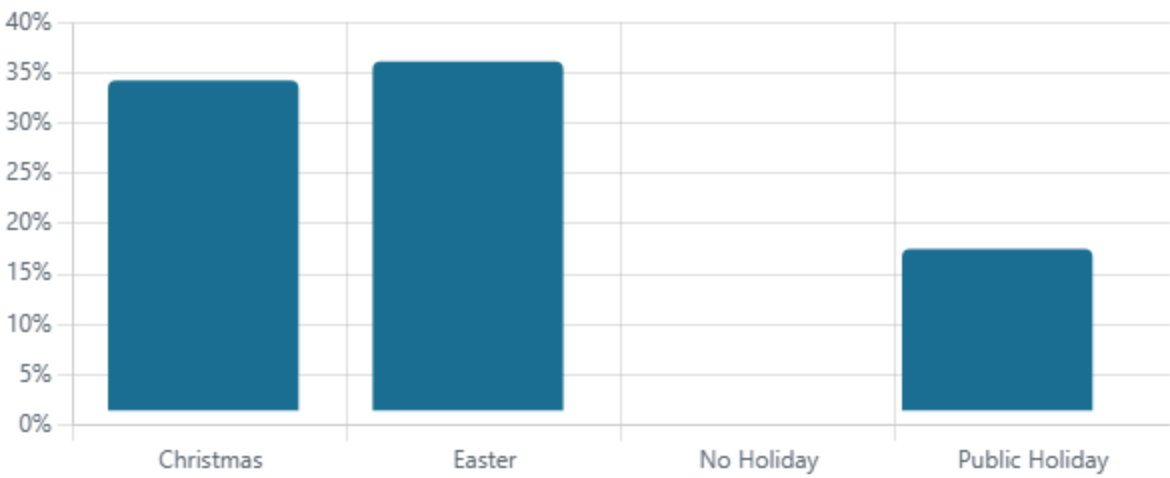

Promo uplift — by store type dashed line = overall avg. 38.8%

Holiday uplift — naive vs. corrected KEY ANALYTICAL FINDING

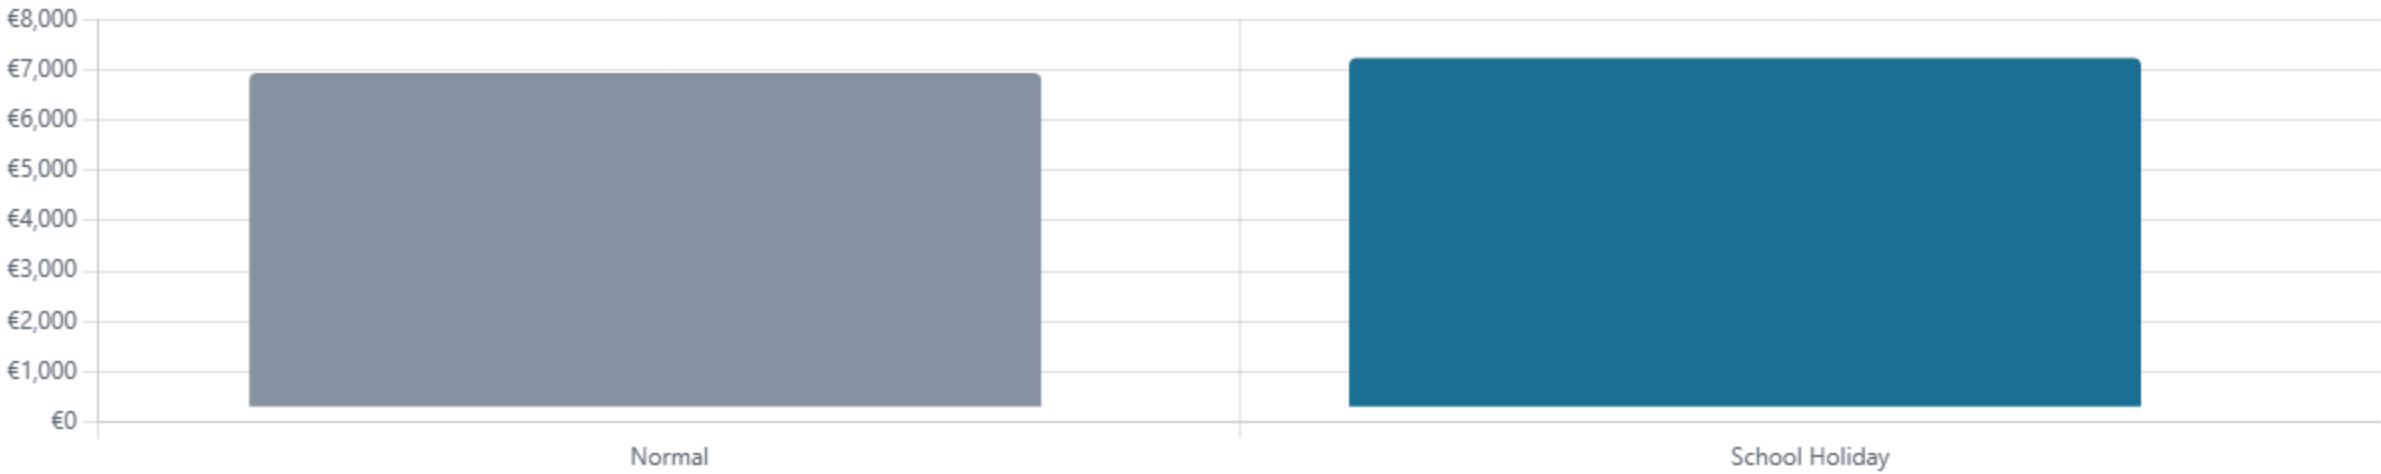

Naive: all stores, uncorrected.

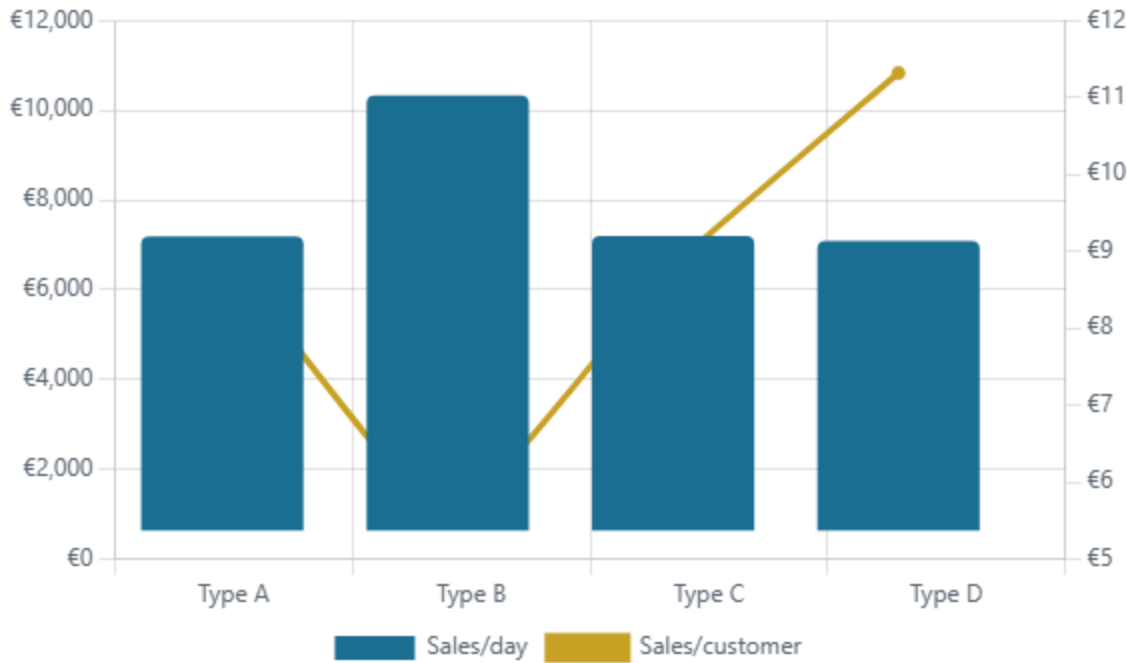

Corrected: only the 156 stores that actually open on public holidays — store-level comparison.

School holidays moderate effect — neutral colors

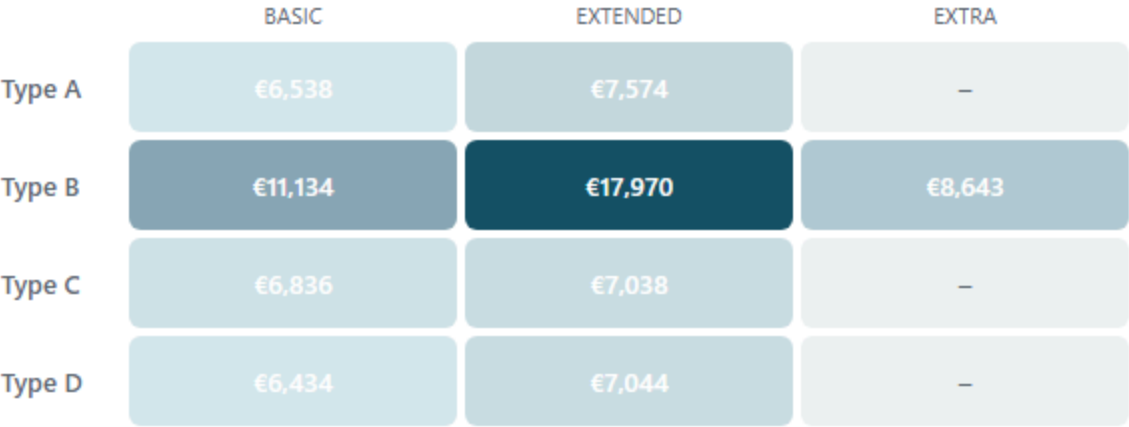

Store Segments

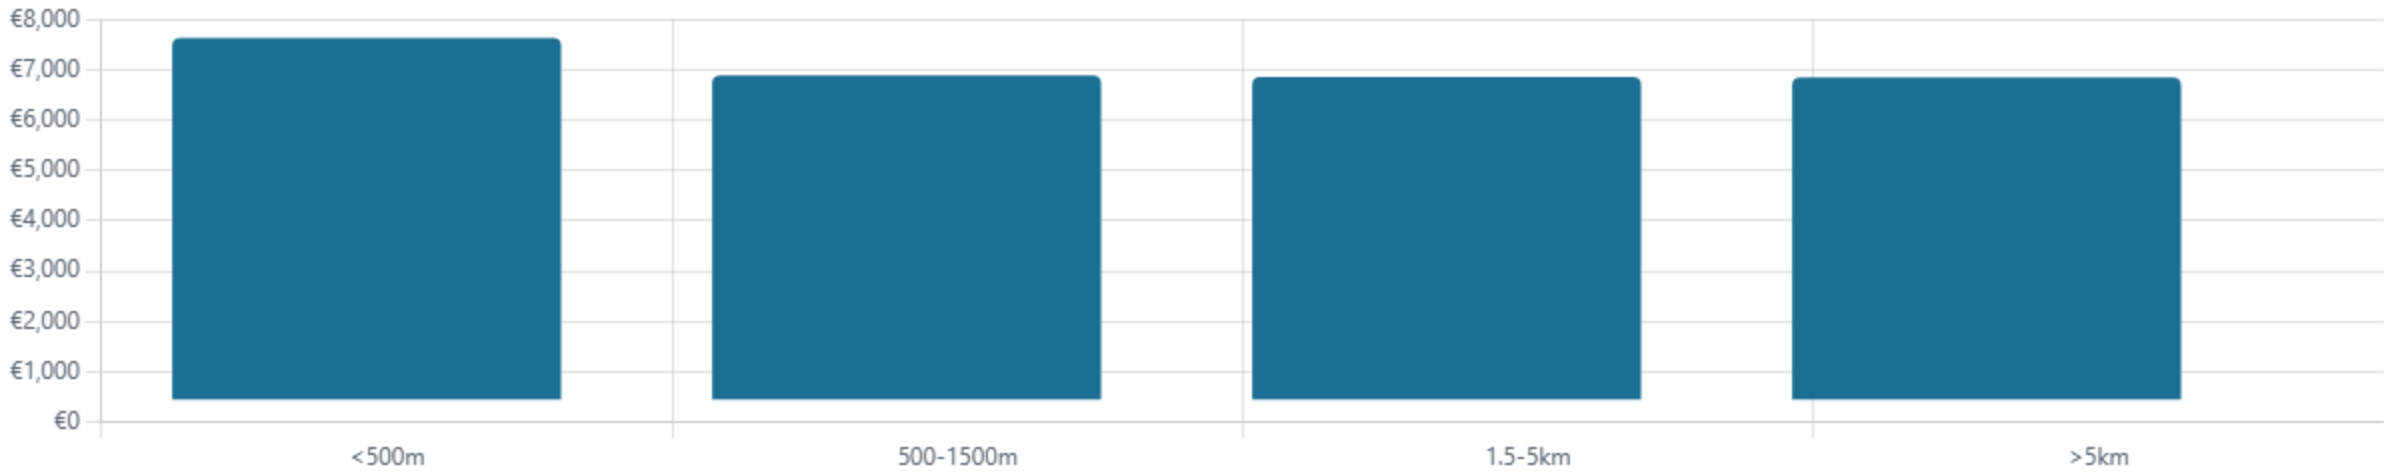

Store type comparison bars = sales/day, dots = sales/customer · click a bar to filter Store Ranking

Store type × assortment heatmap of avg. sales/day

Competition proximity avg. sales/day by distance class

$r \approx -0.05$ — location beats raw distance (correlation computed in the Python notebook on store level).
